

25 Years of facilitating work skills for lawyers

## Leadership Matters for Lawyers

3 CPD Points for Victorian Legal Practitioners

### Impactful Leadership Workshop

*"I will think less, act more"*

**Thrive Rather Than Survive:** Do you want to thrive in your legal career and make smarter kinder decisions about your future?

**impactful Approach:** Do you want to add an impactful groundbreaking approach to your people development in 2025 and offer activity based impactful learning?

**Retention Boost:** Do you want to enhance retention of your early career professionals?

**Changing Mindsets:** Are you searching for a breakthrough strategy in how to challenge existing mindsets and behaviours?

**Safer Work Practices:** Do you need your leaders to shift their perspectives towards safe workplaces, especially for your young people and those from intersectional backgrounds?

Our horse engagement exercises focus on **Accountability** and **Core Emotional Intelligence** strengths to build lawyers' resilience and confidence at work. Our facilitation method is from the Equine Experiential Education Association (E3A). This is a coaching rather than therapeutic approach. **No horse riding**. When invited to do so we can consult with your legal organisation including your line manager, work team (or practice) leader and People and Culture professionals.

## Contact Us

individual lawyers and legal organisations are both invited to enquire. Our fees are reasonable.

The sessions are available on Wednesday, Friday and Saturday and other days by arrangement.
